

## **BOARD MEETING 8/19/2010**

### **OPEN FORUM**

The board discussed a proposal for control of the deer population. This is an open item for future board meetings.

### **BOARD MEETING**

We have received the \$18,000 spent on the emergency road from Firewise and a new contract for the current Firewise year has been approved and submitted to Firewise for their approval.

Coming soon – new parking restrictions for the paved area by the lake at Tranquility Lakes. Parking will be limited to insure access to the lake for emergency vehicles. This is our major source of water to fight a fire in our community.

Chipper day is again being planned for this fall. The date has not been finalized at this time.

The Cascade Creek pond will be drained again in another attempt to stop the leaks in the pond.

The next board meeting will be Thursday 9/16 at 7pm
