BOARD MEETING

Repair and painting at the clubhouse is now complete.

New car and boat stickers are here. If you don't have the stickers you need, go to the web site for information on how to get them.

The emergency road is now on hold, all \$18,000 applied for in the 2009-2010 Firewise grant has been spent and paperwork has been submitted for reimbursement. Curtis Ish is now working on completion of the 2010-2011 Firewise grant to finish work on the road as well as several other projects.

Emergency Evacuation flags for the mailboxes and laminated emergency instructions are completed and will be delivered to all residents.

We are getting prices to get rid of the kudzu on Plateau Lane in Cascade Creek.

Based on Cedar Management's legal review, we will not rent any of the boat slips at the remote piers.

The next board meeting will be Thursday 8/19 at 7pm
