

SUMMARY OF JUNE BOARD MEETING

Repairs are ongoing and the back (facing the lake) of the clubhouse will be painted in July and deck railing will also be completed.

Cascade Creek pond is leaking again. The board will start to gather options to fix the leak.

Letters are being sent to all homeowners who do not have a standard mailbox. The standard mailbox complies with the state law that requires all homes to have visible numbers so emergency vehicles can find the correct house.

New car and boat stickers are here. If you don't have the stickers you need, go to the web site for information on how to get them.

The rental of boat slips is currently on hold pending feedback from Cedar Management on several outstanding issues.

The next board meeting will be Thursday 7/15 at 7pm.
