

SUMMARY FOR WEB POSTING – BOARD MEETING 3-17-11

OPEN FORUM

It was suggested that the board should look at what another community has done to reduce damage to grass on the side of the roads. Pictures will be sent to the board for discussion at the next board meeting.

BOARD MEETING HIGHLIGHTS

The boat storage area will be checked for stickers on everything stored there early in 2011. If you need a sticker contact Cedar Management or go to our web site.

Hunting has now stopped. The total number of deer removed was 29. According to Wildlife Management, we need to remove about 75 deer per year. Planning for the 2011 season will begin later this spring. If you are interested in this, please contact Alan Hoppensteadt, Ed Carlson or Alex Roland.

The work at Cascade Creek was completed and the pond is filling back up. We will monitor the pond to see if the leak has been closed up. Thanks to all who volunteered for the workday at Cascade Creek.

The extra sand from the snowstorm will be removed from the roads this month.

The pool season is coming soon and preparations have started to get the pool ready. Right now the only known problem is the repair/replacement of concrete near the pool gate.

The next board meeting will be April 28 at 7 PM.
