GENERAL USE RESTRICTIONS

Declarant does hereby covenant and agree with all person, firms or corporations hereafter acquiring title to any portion of the Property that the Property is hereby subject to these Restrictions as to the use thereof and do agree, publish and declare that the deeds hereinafter made by it to purchasers of the Property shall be made subject to the Declaration and to the following Restrictions:

1. Except as otherwise provided in these Restrictions, the lots shall be used for residential purposes only, and no structure shall be erected, placed, altered or permitted to remain on any lot other than one detached, single-family dwelling and related structures incidental to the residential use of the lot, such as garages and boat houses, which otherwise comply with these Restrictions, except that Declarant reserves the exclusive right to construct a roadway over any lot owned by it in order to grant access to other property acquired by Declarant and in such cases the remainder of any such lot not used for the roadway shall still be subject to these Restrictions. All single family lots fronting on High Rock Lake, as shown by the record maps thereof shall have a minimum size of 40,000 square feet.
2. Each single-family dwelling shall have an enclosed, heated living area (exclusive of open porches, garages, and other unheated spaces) not less than One Thousand Eight Hundred (1,800) square feet on the waterfront and One Thousand Four Hundred (1,400) square feet on the interior lots within the subdivision, regardless of the number of stories. The design, location, and construction of all improvements on each lot (regardless of when such improvements are made) and the landscaping of each lot must be approved in advance by the Architectural Review Committee, hereinafter referred to as the "Committee", which Committee is established pursuant to the Declaration.
3. All improvements to the lot must comply with Davidson County setback requirements. All structures shall be at least 10 feet from the side property line of any lot, except that they shall be at least 20 feet from the side property line abutting a street. The front setback line (facing Healing Springs Drive) shall meet or exceed Davidson County subdivision regulations, however notwithstanding anything herein to the contrary, said front setback line shall not be closer than fifty (50) feet to any existing or newly

constructed road, unless with prior written approval of the Declarant, or if Declarant so designates, by the Committee. Setback lines for fences and walls shall require written approval of the Committee. Declarant, or if Declarant so designates, the Committee, shall have the right to approve deviations from each of these setback requirements upon application of an individual lot owner if, for reasons of topography or well or septic approvals, strict compliance creates a hardship.

4. More than one lot (as shown on said plat(s)) or portions thereof, may be combined to form one or more lots by (or with the written consent of) Declarant, its successors and assigns. No lot may be subdivided by sale or otherwise except by (or with the written consent of) Declarant, its successors and assigns. Upon combination or subdivision of lots, the building line requirements prescribed herein shall apply and the easements reserved herein shall be applicable to the rear, side and front lot lines of such lot as combined or subdivided. The resulting building site and structures erected thereon must otherwise comply with these Restrictions and the new property line of the resulting building site shall be used to compute the set-back lines as set forth herein.

5. All connections of private driveways to The Springs at High Rock road system, and all connections of private easements and right-of-ways to that road system shall be constructed and maintained in accordance with the rules, regulations and specifications as approved by the Architectural Review Committee on The Springs at High Rock Homeowners Association.

6. There shall be no signs, fencing or parking permitted within the road right-of-way.

7. No building, fence, wall, pool, outbuilding, driveway, or any other accessory feature to the dwelling or any other structure upon any lot shall be commenced, erected, placed, maintained or altered, and no well may be drilled, on any lot or combination of contiguous lots until the Complete Construction Plans (hereinafter "Plans") are approved in writing by the Committee or its designated agents. The Committee's refusal or approval of plans may be based upon purely aesthetic considerations, which in its sole discretions of the Committee shall deem sufficient, but approval shall not unreasonably be withheld. One copy of all plans and related data shall be furnished to the Committee for its records. If no action is taken by the Committee within thirty (30) days after plans are submitted to it, the owner may proceed to build without approval.

8. Construction of new residential buildings only shall be permitted, it being the intent of this Covenant to prohibit the moving of any existing building or portion thereof on a lot and remodeling or converting the [same] into a dwelling unit in this subdivision, excepting however, Declarant's mobile offices provided for hereinbelow.

9. With the exception of construction which is interrupted or delayed due to physical damage to the work in progress (such as damage due to fire, lightning, windstorm, hail, riot or civil commotion, explosion, or theft), any dwelling constructed upon a lot must be completed within one (1) year subsequent to commencement of construction, except with

the written consent of Declarant, its successors, or assigns, or, if Declarant so designates, by the Committee. The normal period of completion time for outbuildings or other improvements shall be presumed to be four (4) months from the issue date of the building permit. In the event that completion of the dwelling, outbuildings, or other improvements on any lot is not completed within one year, and it is determined that construction progress has diminished to such an extent that completion of the dwelling, outbuildings, or other improvements is unlikely within 120 days, The Springs at High Rock Homeowners Association, hereinafter referred to as the "Association," will be advised of this determination. The Association shall then have the right to give notice to the owner that the owner has the obligation, within 30 days, to complete the removal of all the construction work in progress, including without limitation, the foundations and all building improvements and all stored building materials, and fill and grade the lot so that it is restored to its natural grade level, and the Association shall have the right to undertake this work upon owner's failure to do so and charge the cost to the owner and place a lien upon the lot upon owner's failure to pay these charges.

10. No trailer, truck, van, mobile home, tent, camper, barn, garage, or other outbuilding or temporary structure parked or erected on lots in this Subdivision shall at any time be used as a residence, temporarily or permanently, nor shall any structure of a temporary character be used as a residence; provided, however, that this prohibition shall not apply to shelters used by the contractors during the construction of the main dwelling house, it being clearly understood that these temporary shelters will not be permitted to remain on any lot after completion of construction. The Committee shall have the right to approve or disapprove these temporary construction shelters or vehicles. The Committee, upon approval of a temporary construction shelter or vehicle, will issue a letter stating the length of time such a shelter will be allowed to remain upon such lot and where such shelter is to be located upon such lot. Modular homes are permissible if approved by the Committee.

11. All homes constructed in The Springs at High Rock Subdivision must be supplied with water for normal domestic use from individual privately drilled wells, or from a public utility company, if available. Each individual owner shall locate the well drilled on such owner's lot so as to comply with all the governmental regulations regulating the minimum distance between such well and septic fields proposed or approved for owner's lot and all lots adjoining such owner's lot. Before drilling a well, each owner must submit a site plan for approval by the Committee locating the proposed building site, drainage and repair septic field and well site.

neighborhood. No animals or poultry or any kind may be kept or maintained on any of said lots, except a reasonable number of dogs and cats and other indoor household pets. Each owner must see to it that all of the owner's dogs are kept on the owner's property unless leashed. No dogs shall be permitted to roam the property and the Association may have strays and dogs that are not [leashed] and are found off their owner's lot picked up by governmental authorities. The throwing or dumping of trash, garbage, and waste materials shall not be permitted. The interference of any stream or future waterways so as to cause pollution or stagnation in these waterways is prohibited. There shall be no excavation, which does not pertain to the building or construction of a home. Bottled gas containers and oil tanks shall be screened from public view. There shall be no aboveground swimming pools, unless approved by the Committee.

15. No portion of part of any lot shall be used or maintained as a dumping ground for rubbish or other refuse. Trash, garbage, or other waste shall not be kept, except in sanitary containers screened from view from all roads, all other lots, and from the Common Property provided that the Declarant, prior to the sale of such lot, may use portions of such lot as a burial pit in accordance with governmental regulations.

An easement of twenty (20) feet is reserved for such purposes along the real lines of all lots that do not adjoin other lots or properties within The Springs at High Rock Subdivision. As between the easements reserved by these Restrictions and the easements that are located in the same areas as shown on the record maps, the easements that are greater in width shall be the easements that are in effect.
